# Ashlar & Rubble Series

The skillfully handcrafted stones from this series can be traced back to times when artisan masons meticulously chiseled blocks of limestone to construct majestic structures. These magnificent stone profiles possess wonderfully sculpted textures and can be installed in an ashlar or coursed pattern.

# TECHNICAL DATA

Coronado Stone supports the specification and design process with architectural binders, hatch patterns, tileable textures and a variety of other helpful specification tools, all of which are available in hardcopy or can be downloaded from our website.

TATALANA I 12" x 24" Chiseled Limestone - Silver Ash

16" x 24" Colosseum Travertine - Black Forest 16" x 24" The Getty Stone - *Embassy Blend* 16" x 30" Sand Canyon Flagstone - Palomar Blend

## TECHNICAL DATA

#### **TECHNICAL DATA**

Coronado Stone is manufactured to meet or exceed specifications for all major code approvals. Independent testing confirms compliance with ICC-ES AC51 for Precast Stone Veneer. Always check your local building codes before installing stone.

Weight: The average packaged weight of Coronado Stone veneer is 8 to 12 lbs. per square foot. Weight varies with thickness.

Non-combustible: Testing on Coronado Stone showed zero flame spread and zero smoke development.

Integral Colors: Coronado's production process results in a product which maintains a natural stone appearance even after many years of exposure to the elements.

**Approvals:** Coronado Stone has been tested by independent laboratories and has been approved for its intended use by:

ICC The International Conference of Building Officials. Report ESR-2598

**Texas Department of Insurance Product** Approval Code. Evaluation ID EC-101

Florida Department of Business & **Professional Regulation Approval Code. Evaluation FL31373** 

#### **TECHNICAL DOWNLOADS**

Visit **www.CORONADO.com** to download an extensive collection of technical data and specification sheets. Click on the (RESOURCES) link in the top menu bar to view the following items:

### LIMITED WARRANTY

#### **50 YEAR LIMITED WARRANTY**

Coronado Stone Products' wall veneers are protected under this warranty for a period of 50 years from the date purchased, when used on a vertical structure which conforms to local building codes and when installed in accordance with the manufacturer's instructions. Warranty coverage specifically excludes: damage resulting from structure settlement and other types of wall movement, contact with paint or chemicals, discoloration due to contaminants, staining, oxidation and water damage.

This warranty covers only manufacturing defects in Coronado Stone Products' wall veneers and is limited to the replacement or repair of defective materials only and does not cover the cost of removal or installation of defective products. This warranty is limited to the original purchaser and is non-transferable to any subsequent owner.

In 1960, there was only one stone manufactured in California. It was a 2<sup>1</sup>/<sub>2</sub> x 4' sheet of concrete which was broken up into random shapes at the job site. Mel Bacon saw the need for something better and started making his own stone. He soon developed the first random shaped stones from individual molds which led to the development of many of today's popular varieties of ledge stones and ashlar patterns.

As a mason, Mel experienced the difficulty of installing stone that was not created with the installer in mind. It was heavy and the shapes and sizes were difficult to piece together. He realized that through proper pattern and mold design, ease of installation could be achieved. From that moment, ease of installation became the benchmark for every pattern of stone Mel created. Easy installation is not only a time saver, it's a project saver.

The pride we take in the creation of our product shows in the quality experience you will enjoy as one of our valued customers. Give Coronado the opportunity to make you a believer. Our mission is your satisfaction!

Coronado manufactures and distributes its high quality stone at seven factories conveniently located across North America
