

ELDORADO OUTDOOR™

THE BUILDING BLOCKS FOR LUXURY OUTDOOR SPACES.

ELDORADO  STONE

A HEADWATERS COMPANY

THERE'S NOTHING QUITE LIKE enjoying the pleasures of an evening dining alfresco.

Extending your living space to the outdoors is no longer just a trend, but a lifestyle worth attaining. And although an outdoor kitchen can be fulfilling, creating one can be anything but entertaining. Typically, designing and building an outdoor kitchen can involve multiple days if not weeks of messy masonry work, consuming contractor scheduling and considerable construction waste.

Eldorado Stone® is pleased to transform this process entirely with the introduction of Eldorado Outdoor™, a collection of strong, yet lightweight building blocks that quickly assemble into custom barbecue islands, kitchen counters, bars, fireplaces, fire pits and more—ready to be dressed with Eldorado Stone and Brick within hours.

Eldorado Outdoor saves time, materials and installation costs, all while allowing you to customize and design the perfect outdoor retreat.

THE INSTALLATION OF OUTDOOR SPACES SIMPLY REDEFINED...

Eldorado Outdoor products quickly assemble into a virtually limitless combination of configurations. Each piece is made of glass-fiber reinforced concrete (GFRC) which can be installed on any solid flooring surface without concrete footings or rebar. Eliminated is the construction waste and additional time

associated with traditional masonry block installs. Eldorado Outdoor products can be assembled in just hours; even cut-outs for custom features such as barbecues, sinks, drawers and burners can be done on-site.

- 1 There is no need to spend numerous hours pouring footings, laying block, bending rebar & floating the counter. Choose from numerous available sections and sizes, then install directly over existing solid surfaces. 2 All boxes have predrilled bolt holes for easy assembly. 3 4 Measure your appliances and easily cut openings right on-site. 5 Available raised backsplashes with 10" cantilevers create unique custom bar counters. 6 Accessories such as end caps simplify the construction process. 7 8 9 Eldorado Stone & Brick veneers can be installed directly to the factory scratch coat, saving prep time and materials.

ONLINE DESIGN TOOL

Made from tough glass-fiber reinforced concrete, but light enough and right-sized to transport & position anywhere for easy on-site assembly.

Now you can design the ultimate outdoor space with the **Eldorado Outdoor Online Design Tool**. It's the first step in creating your own luxurious outdoor retreat. Design your custom space by selecting from our outdoor cabinets, fireplaces, fire pits, seating walls or columns. If you need a little inspiration, choose one of our *Signature Outdoor Designs*, each of which features a complete "recipe book." Eldorado Outdoor is manufactured with an Integrated Factory Scratch Coat. The scratch coat eliminates any additional prep work and is ready to immediately receive stone or brick, creating a real time saver. Since the scratch coat is integral to the cabinet design, it also guarantees a consistent groove depth allowing for a very strong sheer bond between the cabinet and stone veneer.
